Re: Sherwin Alumina “WARN Act” Notice

Corpus Christi, TX, USA – Sherwin Alumina Company LLC has released notice dated February 4, 2016 in regards of the Worker Adjustment and Retraining Notification (WARN) Act of 1988. Certain development may result in substantial layoffs and/or complete cessation of business operations at the company’s Gregory, Texas plant.

The Sherwin Alumina plant opened in 1953 and has produced aluminum oxide, or alumina, for over sixty years. In 2015 Sherwin Alumina moved 79 vessels. This is equivalent to 4,447,763 tons and \$183K in revenue for Port Corpus Christi.

Port Corpus Christi will continue monitoring any developments and potential regional impact.

About Port Corpus Christi

As the primary economic engine of the Coastal Bend, Port Corpus Christi is the 5th largest port in the United States in total tonnage. Our mission; to “Leverage Commerce to Drive Prosperity.” Our vision; “To be the energy port of the America’s.” Strategically located on the western Gulf of Mexico, with a straight, 45’ deep channel, Port Corpus Christi provides quick access to the Gulf and the entire United States inland waterway system. The Port delivers outstanding access to overland transportation with on-site direct connections to three Class-1 railroads and uncongested interstate and state highways. Port Corpus Christi is protected by a state-of-the-art security department and an award-winning Environmental Management System. With outstanding management and operations staff, Port Corpus Christi is clearly “Moving America’s Energy.”
