

Join us for an open house on the Port of Corpus Christi Authority

## CHANNEL DEEPENING STUDY

The Port of Corpus Christi Authority is studying the feasibility of deepening the Corpus Christi Ship Channel from the Gulf of Mexico through Harbor Island to La Quinta Junction to between -75 and -85 feet. The deepening would allow for safer and more efficient transfer of crude by accommodating fully laden Very Large Crude Carriers (VLCCs), and would better prepare the Port for all future commodities in the long-term.

Join us for an open house to learn more about the study, ask questions, and provide feedback.

### PORT ARANSAS

September 26, 2018, 4 p.m. - 7 p.m.  
Port Aransas Community Center  
408 North Alister, Port Aransas, TX 78373

### CORPUS CHRISTI

September 27, 2018, 4 p.m. - 7 p.m.  
Solomon P. Ortiz Center  
402 Harbor Drive, Corpus Christi, TX 78401

*Two dates are available for your convenience; information provided will be the same. Format is come-and-go; no formal presentation will be made. The study team will be available throughout each event.*
