Barge Shelves – Corpus Christi Ship Channel Cut B

Issue Date: April 17, 2025

The U.S. Coast Guard Cutter MALLET has completed marker relocation in Corpus Christi Ship Channel Cut B for Lights 38 – 82. These aids to navigation changes are in support of the Port of Corpus Christi Ship Channel Improvement Project, including the completion of dedicated barge lanes, and will allow for two-way traffic of both vessels and barges in tandem. The below diagram illustrates approximate reference. Exact coordinates of the repositioned markers may be found at Light List - Corpus Christi.pdf.

Parties with urgent concerns can contact the U.S. Coast Guard Sector Corpus Christi Command Center at 1-800-874-2143; or for non-urgent questions and concerns, email CCWaterways@uscg.mil.

T. J. CARDENAS
Lieutenant, U.S. Coast Guard
